

Quality Creates Value

WD PREMIUM CYLINDRICAL ROLLER BEARINGS

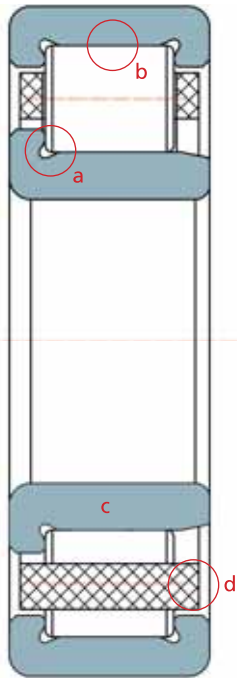

Particularly suitable for

- ✓ Precision running
- ✓ Noise & vibration reduction
- ✓ High loads
- ✓ Long lifetime

Quality Creates Value

Product Features

a. Ribs and Rollers

Optimum designed to reduce friction and enhance axial load capacity.

b. Rollers and Raceway

Optimum designed profile to balance radial load and extend lifetime.

c. Material & Heat Treatment

High standard material and special heat treatment, improve bearing reliability, reduce raceway cracking and extend lifetime.

d. Cage Material

Steel, brass or ET cage (L-PPS, provide better heat resistance, oil resistance and abrasion resistance).

Applications

Automobile

Construction Machinery

Electric Motor

Material Handling System

Gearbox
